Caleb Tolorunleke Adebayo

has successfully completed the online, non-credit Specialization

Meta Full-Stack Developer

Congratulations on completing the Meta Full-Stack Development Specialization! You've mastered the skills needed across frontend and backend technologies. This certificate recognizes your hard work and dedication to developing valuable skills in today's tech industry. Please share it with your professional network. You've developed a skillset spanning the entire web development spectrum: mastering HTML, CSS, JavaScript and React on the frontend while building expertise in Python, databases, and Django for backend applications that integrate with your frontend work. Your completion of this program shows you can build complete web applications end-to-end, an important skill set for success in web development.

Taught by Meta Staff

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
